Angenica Tizon

Bachelor of Science in Information Technology
Qatar

Summary

As an IT professional with a Bachelor's in Information Technology, I specialize in optimizing network infrastructure, IoT systems, and IT service delivery. My experience includes serving as an IT Skill Facilitator at UDST where I implemented effective troubleshooting protocols and trained users on system maintenance, significantly improving operational reliability. In my role at ACC's Ophthalmology Department, I resolved critical technical issues to maintain seamless clinical operations while applying ITIL best practices to enhance service efficiency. With strong competencies in web technologies and database management, I excel at developing technical solutions that address both user needs and business objectives. My approach combines technical expertise with clear communication to deliver reliable, user-focused IT support.

Experience

University of Doha for Science & Technology
Network Programming II Learning Specialist
September 2025 - Present (1 year 2 months)

• Provide specialized academic support for upper-level university courses in Network Programming.
• Translate complex topics such as concurrency, socket APIs, and network protocols into clear, understandable lessons.
• Develop and facilitate hands-on coding sessions focused on building and debugging robust client-server applications.
• Assist students in mastering critical tools for network analysis and development, including Wireshark.
• Collaborate with students to strengthen their problem-solving strategies for designing and implementing network-based software.

G-7 Ambassadors Model
Administrator
July 2025 - December 2025 (6 months)
Doha, Qatar
